[New Zealand Bound](#)

The 2013 lessons are uploaded weekly. As you may have noticed we are in the midst of Rhythmic Boot Camp - something that can assist every player. Recently I received a redesigned pipe bag from Willie McCallum, who happens to be working with Bannatyne. Try it – a dynamic new shape for the medium sized bag with a very efficient moisture system!

As you see, I am off to New Zealand next week to judge their national pipe band championships. Lessons will continue as usual... back late in March.

Announcement

Murray Blair has once again topped the bagpipe tuner market. Following on the footsteps of his successful iPad and iPhone App and the HBT-2 tuner, he has developed the handheld HBT-3 Bagpipe Tuner, with all the features that allow you to pitch every note on the chanter, as well, tune your drones. This is truly a leap forward for all players. In addition, it retails for a much lower price. Contact Murray at his website

<http://www.thebagpipetuner.com>

or email: thecaptainscorner@gmail.com

Subscription renewal notices are now complete for February. If you are using the Classroom on a regular basis, why not suggest to your band that others would benefit from a band subscription.

For Sale:

Vintage Peter Henderson Bagpipe – Silver and Imitation Mounts – manufactured in the early 1960's – sticks only or set up ready to play.

\$4,000 or B/O
