Well the summer games are going great. Kingsville this past weekend offered the first ever quartet contest at an outdoor event...it was a huge success... Ian K. MacDonald continued his string of professional solos by sweeping all prizes. The Ohio Games were run successfully on Saturday, a day before the Ohio summer school begins. The instructors for the week include Bob Worrall from Ontario and Barry Donaldson from Glasgow... as always, these pros will attract a large participation!

The Embro Games are on this coming week on their traditional July 1, Canada Day date...always a pleasure attending these games, being one of the oldest in the province...

As this is the last update prior to the summer vacation for the Captain's Corner, may I wish everyone a safe couple of months and good piping...see you in September....
